Dear Friend:

We were both happy to receive your telegram and we look forward to seeing you here in June.

We both wish to thank you for your most kind good wishes for our happiness. I am sure you realize that the foolish things printed in some newspapers were entirely the invention of one or two irresponsible persons. For example, I was not ill in a hospital in Reno or in any other place. In fact, I was not in Reno at all. In any case all is well now and we are both deeply happy.

Friendliest greetings to you both from us both
